## PLASTER PUMPS 1200 and 2500

**NEW!**

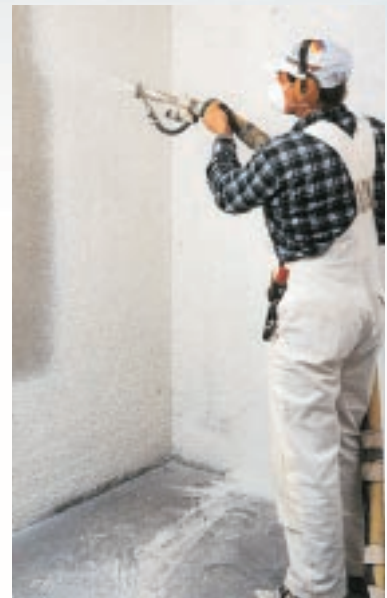

**CURA-1200 and CURA-2500** are screw pumps for pumping and spraying plasters and other masses; finishing plasters, fibrous plasters of thin coatings, non-inflammable substances and pumping of self levelling floor masses. Spraying requires separate air compressor.

CURA-equipments have been constructed suitable for use on the building sites. CURA pumps are easy to use, practical to handle and clean. Pumps are very strong and many technical features makes applications easier and quickly.

New shape of CURA-1200 and CURA-2500 makes possible to transport them in a small space. Removable hopper is easy to clean. It is made of stainless steel and it is modified to move the material continuously to screw.

CURA-1200 is 1-phase and CURA-2500 is 3-phase operated screw pump with stepless control by frequency transformer.

Accessories like sack emptier, different rotor-stator combinations and variable spray pistols allows all kind of sprayable materials use with CURA-1200 and CURA-2500.

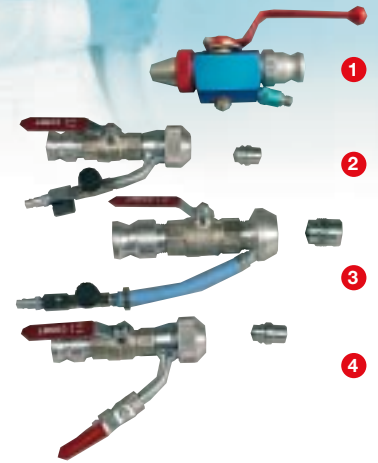

*CURA-plasterpumps save approx..  
50% of work performed compared  
to conventional working methods.*

## SPRAY PISTOLS

- 1 CURA-pistol** for coatings and finishing plasters. Made for all CURA units. Nozzles 4, 7, 10 and 12mm.  
**Part number 517159050** (without nozzles)

### Nozzles for CURA-pistol

Size	Part Number
4mm	517154011
7mm	517154013
10mm	517154015
12mm	517154016

- 2 PP-pistol** for coatings. Made for CURA-10, -1200. Nozzles 5, 7 and 10mm.  
**Part number 517150040.1** (incl. nozzles)
- 3 AHO-plasteringpistol**. Made for CURA-100, -110, -201 and -2500. Nozzles 10, 14 and 18mm.  
**Part number 517120302** (incl. nozzles)
- 4 PIN-pistol** for finishing plasters. Made for CURA-100, -110, -1200 and -2500. Nozzles 5, 7 and 10mm.  
**Part number 517111331** (incl. nozzles)
